

CAT 6/6e Patch Cord

Model **CAT-0630**

CAT 6/6e Patch Cord

Overview

Cat6 RJ45 Ethernet Patch Cord - High Speed LAN Cable

Ensure reliable and high-speed network connectivity with this **Cat6 RJ45 Patch Cord**, designed for Gigabit Ethernet applications. Built with **24 AWG bare copper conductors**, it delivers stable performance with minimal signal loss. The **UTP design** reduces interference, while the **durable PVC jacket** provides flexibility and long-lasting use.

Ideal for connecting **routers, switches, patch panels, PCs, CCTV systems, and gaming consoles**, this cable ensures seamless data transmission up to **1 Gbps with 250 MHz bandwidth**.

Key Features

- Supports **up to 1 Gbps data transfer**
 - **250 MHz bandwidth** for reliable performance
 - **24 AWG pure copper conductor** for low resistance
 - **RJ45 (8P8C) connectors** with T568B wiring
 - **UTP design** minimizes interference
 - **Flexible and durable PVC jacket**
 - Compatible with **Cat5e & Cat6 networks**
-

Available Length Variants

- 1 Meter
- 1.5 Meter
- 2 Meter
- 3 Meter
- 5 Meter

- 8 Meter
- 10 Meter

Technical Specifications

Bandwidth	Up to 250 MHz
Cable_Type	Category 6 (Cat6)
Color	Multiple options (Blue, Grey, Yellow, etc.)
Conductor_Gauge	24 AWG
Conductor_Material	Bare Copper
Connector_Type	RJ45 (8P8C) Male to Male
Data_Rate	Up to 1 Gbps
Jacket_Material	PVC
Length	1 Meter
Operating_Temperature	-20°C to +60°C
Outer_Diameter	~5.5 mm
Shielding	UTP (Unshielded Twisted Pair)
Storage_Temperature	-30°C to +75°C
Wiring_Standard	T568B

Warranty & Support

Returnable
