

Smoke Sensor

Model **SS-2070**

Smoke Sensor

Overview

High-performance smoke sensor designed for reliable fire detection in residential, commercial, and industrial environments. Utilizing photoelectric sensing technology, it ensures early smoke detection with stable performance and minimal false alarms.

Key Features

- Supports **2-wire and 4-wire configurations**
- Advanced **photoelectric smoke detection**
- Bright **LED indicator** for status monitoring
- **Quick response** to smoke presence
- Durable **ABS housing**
- Easy **ceiling-mounted installation**

Use Cases

- **Fire alarm systems**
- **Commercial buildings**
- **Warehouses and factories**
- **Office and residential safety**
- **Industrial fire detection systems**

Technical Specifications

Application	Fire alarm systems
Color	White/Cream
Detection	Photoelectric
Indicator	LED status indicator
Material	ABS housing

Mounting	Ceiling mount
Product	Smoke Sensor
Type	2-Wire / 4-Wire Smoke Detector
Voltage	12V / 24V DC

Warranty & Support

Returnable
