

Vibration/Multi Detector/Glass Break Sensor

Model **VSS-8820**

Vibration/Multi Detector/Glass Break Sensor

Overview

Multi-functional vibration and glass break sensor designed to detect shocks, impacts, and glass break events. Ideal for enhancing perimeter security, it provides fast and reliable detection for doors, windows, and sensitive entry points.

Key Features

- Dual detection: **vibration & glass break sensing**
- **Adjustable sensitivity** for different environments
- Fast response to **impact and intrusion attempts**
- Compact **surface-mount design**
- Durable **ABS enclosure**
- Compatible with **alarm control systems**

Use Cases

- **Window and glass protection**
- **Door and shutter vibration detection**
- **ATM and safe security**
- **Retail store protection**
- **Residential and commercial intrusion detection**

Technical Specifications

Application	Intrusion detection
Color	White
Detection	Vibration & Glass Break
Material	ABS housing

Mounting	Wall / Surface mount
Product	Vibration / Glass Break Sensor
Sensitivity	Adjustable
Type	Multi Detector
Voltage	9-16V DC

Warranty & Support

Returnable
